

# REQUEST FOR ACTION (RFA) RESPONSE

**GLAST LAT Project  
Calorimeter Peer Review**

**17 – 18 March 2003**

<b>Action Item:</b>	CAL – 016
<b>Presentation Section:</b>	Electronics
<b>Submitted by:</b>	B. Graf (F. Blanchette)

**Request:** Systems verification and test - Revisit EMI acceptance testing with LAT and receive direction.

**Reason / Comment:** Ongoing discussions between the GPO and LAT have focused on the necessity of conducting limited EMI acceptance testing on ALL follow-up units. First unit must receive complete qualification testing.

**Response:**

With the concurrence of the GPO and the LAT IPO, this RFA has been closed since the issue raised is one that is being addressed by the LAT system engineering office and the GPO for all LAT testing. CAL will support any required modifications to the environmental test plan as long as appropriate adjustments are made in the cost and schedule for the CAL program. The current CAL program performs qual level EMI/EMC testing on the EM and FMA(Qual) modules only.
